TRAIN DERAILLED.

Man Riding on Front of Mail Car Killed
—None of Passengers Seriously
Injured.

(Associated Press.)

Williston, N. D., July 6.—Westbound passenger train No. 3, on the Great Northern railroad, was derailed 11 miles east of here last evening. One man was killed, a tramp who was riding on the front end of the mail car. None of the passengers were seriously injured, and were able to resume the journey when the track was cleared.

The wreck was caused by spreading rails. Four coaches left the tracks. Eight coaches were destroyed by fire. A number of injured were removed to the hospital here. Among the less seriously injured are Thomas Doyle and wife and Miss Annie Mulvihill, of Ottawa, Ont.

LEANDERS WON.

Defeated Belgian Crew in Final Heat For the Grand Challenge Cup at Henley.

(Associated Press.)

Henley, July 6.—The Leanders, who yesterday defeated the Vespers of Philadelphia, won the final heat to-day in the contest for the Grand Challenge Cup by defeating the Belgian crew two and a half lengths in the splendid time of six minutes fifty-six seconds. This is five seconds better than yesterday, and is only five seconds outside the record.

Eton again carried off the ladies' plate, defeating Christ's College, Cambridge, by a length. Time, 7 minutes 12 seconds.

GROCERY HOUSE DESTROYED.

(Associated Press.)
Nashville, Tenn., July 6.—The whole-
sale grocery house of Phillips, Webb &
Co., one of the largest in the city, was
completely destroyed by fire early to-
day. The loss is about \$100,000.

REVOLT SPREADS TO RUSSIAN SOLDIERS

Life Guard Regiments at Warsaw Refused
to Obey Orders--Fourteen Shot in
Fight With Cossacks.

(Associated Press.)

Berlin, July 6.—A correspondent at
Kattowitz, Silesia, says he learns from
an altogether reliable source that six-
teen men who were designated in each
company of the Lithuanian Life Guard
Regiment in Warsaw to go to Man-
churia on June 28th, refused to go, and
their commander declined to make them do
so. Their colonel sent to another Life
Guard Regiment for help, but the men
also refused to obey orders. Upon a
similar refusal of a third Life Guard
Regiment the colonel of the Lithuanian
Regiment applied to the military com-
mander of Warsaw, who sent a detach-
ment of Cossacks to the Mokotow camp.
Some of the mutineers fired on the Cos-
sacks, who returned the fire, fourteen
altogether being killed before those who
resisted were arrested.

WIENIUS SAYS SITUATION IS GRAVE.

St. Petersburg, July 6.—Inquiry at the
admiralty this morning fails to confirm
the report current late last night that the
Kniaz Potemkin had already left Theodo-
sia.

Admiral Wrenius, chief of the naval
staff, informed the Associated Press that
according to the latest advice the bat-
tle-ship is still at Theodosia.

"What will be done?" asked the cor-
respondent.
"We cannot tell you," was the reply.
"The whole affair is in the hands of Vice-
Admiral Choukine, and he has not com-
municated his plans to us. Admiral
Krugers ships were due to leave Odessa
yesterday afternoon. They should now
be arriving at Sebastopol."

"Do you think that upon their arriving
Vice-Admiral Choukine will dispatch

the squadron to try to capture the Kniaz
Potemkin?"

"We do not know what he will do. In
my opinion the easiest and promptest so-
lution would be to send a torpedo boat
to sink her, and I have advocated that
course. The situation is grave."

"The ship is now in the hands of her
crew, but also in the hands of the revo-
lutionary committee, which went on board
at Odessa. They have issued a high-
sounding manifesto to the powers. They
want to be considered insurgents. I pre-
sume their next step will be to ask for
recognition as belligerents. They know
their heads are forfeited, and will stop
at nothing. In the eyes of the law they
are outlaws and pirates. The first thing
necessary is to make an example of the
crew and restore discipline in the Black
Sea fleet."

Admiral Wrenius said there was no
truth in the report from Vienna that 400
Russian sailors had destroyed a cruiser
and sought refuge on board a British
schooner bound for Constantinople.

INHABITANTS ARE LEAVING THEODOSIA.

Theodosia, Crimea, July 6.—The in-
habitants are leaving the town in com-
pliance with orders of the authorities,
who fear that the mutineers of the Kniaz
Potemkin will carry out their threat to
open fire on Theodosia. Only troops and
officers remain here.

STRIKE OF LABORERS AT KRONSTADT OVER.

Kronstadt, July 6.—The dock laborers'
strike here has been settled, the com-
mercial transportation companies reduc-
ing hours of work to nine hours per day and
increasing men's wages ten per cent.

PAUL JONES' BODY.

Will Be Delivered to United States Rep-
resentatives in Paris This
Afternoon.

(Associated Press.)

Paris, July 6.—The unusual sight of a
large detachment of United States sailors
and marines swinging through the central
thoroughfares of Paris to-day aroused
great interest, and brought out an en-
thusiastic ovation from the crowds along
the line of march. The American naval
contingent, number 500 men with 25 of-
ficers, arrived in two special trains this
morning from Cherbourg. They were
uniformed as a landing party, wearing
the regulation gaiters and carrying rifles
with fixed bayonets.

A company of French infantry was
drawn up fronting the station to receive
the Americans. After the French band
had played the "Star Spangled Banner" and
the "Marseillaise" the escort took
up the line of march across the Esplanade
of the Invalides to the Avenue
Piquet, and thence to the military school,
where they were received by a battalion
of French troops drawn up in the great
court. Again the national anthems were
sung, and salutes exchanged.

The visitors were then taken within the mili-
tary school, which will serve as their
barracks during their stay here.

The ceremony of the delivery of Paul
Jones' body takes place at the American
church of the Avenue De Launa at
3.30 this afternoon.

Delivered to Americans.

Paris, July 6.—The ceremony of the
delivery of the body of Admiral Paul
Jones to the representatives of the United
States was held at 3.30 this afternoon
in the presence of a distinguished gather-
ing of the highest official, military and
naval dignitaries of France, the diplo-
mats representative of many countries,
and the special ambassadors and naval
authorities sent from the United States
to receive the body.

ANOTHER FLAG INCIDENT

Captain of Canadian Schooner Compelled
to Lower the Union Jack at
Charlotte.

(Associated Press.)

New York, July 6.—A Rochester dis-
patch to the Tribune says: "A protest
has been filed with the Canadian min-
ister of marine by Capt. Simmons, of the
Canadian schooner Acadia, because the
port collector compelled him to lower the
British flag on his visit in the harbor at
Charlotte on July 4th."

"Collector Bump was informed that
the Acadia had floated the Union Jack
on the morning of July 4th, and ordered
Capt. Simmons to haul it down, saying
it was an insult to the national holiday.
Simmons refused, and threatened to
shoot the collector if he boarded his ves-
sel. Finally Simmons lowered the flag
when threatened with refusal of clear-
ance papers."

NEWMARKET RACES.

(Associated Press.)

London, July 6.—At Newmarket to-day the
Princess of Wales stakes were won by St.
Denis, ridden by Maher. Enchequer was
second, and Lancashire third. Nine horses
started.

ANXIOUS TO RETURN HOME.

Russians at Mare Island Ask For Same
Privileges as Those Granted at
Manila.

(Associated Press.)

Vallejo, Cal., July 6.—More than 100
members of the crew of the Russian
cruiser Lena, which is interned at the
Mare Island navy yard, have made a
demand upon Commander Genter, in
charge of the vessel, that they be accord-
ed the same privileges as those granted
the enlisted men of the Russian ships
interned at Manila—that is, that all of
the crew, except enough men to man the
ship, be paroled and allowed to return to
their homes in Russia. Commander
Genter told the men that he would
communicate their wishes to the state
department at Washington.

The Japanese Loan.

London, July 6.—The negotiations for
the loan of \$150,000,000 with the tobacco
monopoly as security were practically
completed to-day, and the terms will be
signed this evening. The issue price will
be 90 at interest 4½ per cent, and the
loan will be equally divided between New
York, London and Germany, and run for
twenty years. The issuing houses in New
York will be Kuhn, Loeb & Co. The
National City Bank, and the National
Bank of Commerce; in London the Hong-
kong & Shanghai Banking Corporation,
the Yokohama Specie Bank and Parr's
Bank; and in Germany thirteen
houses in different cities will issue bonds.
A prospectus will be out July 11th.

Entertained by Mikado.

Tokio, July 6.—The Emperor gave a
farewell audience and lunch to Baron
Komura, envoy to the approaching peace
conference at Washington, and the staff
of the Japanese peace commission to-
day.

HON. MR. FIELDING'S BUDGET SPEECH

SURPLUS OF NEARLY
NINE MILLION DOLLARS

The Tariff Changes Increase of Duty
on White Lead Will Benefit
British Columbia

(Special to the Times.)

Ottawa, July 6.—Hon. W. S. Fielding
in delivering the budget speech to-day
reviewed the past year from a financial
standpoint, showing that in July, 1904,
the surplus was \$5,056,984, which was
far and away the largest in the history
of the country. The net surplus for eight
years was \$56,437,070. The actual aver-
age surplus was \$7,054,654. During
eight years there was only added to the
public debt \$278,232, or an average of
\$34,000 for each year. The amount of
interest added to the public debt in
1897 was \$9,202,659, and the net in-
terest in 1904 was \$8,892,308.

Hon. Mr. Fielding said the revenue
for the year ending June 30th last he
estimated at \$71,250,000, an increase of
about \$600,000 over the previous year.
The expenditure he placed at \$62,250,000,
leaving a surplus of about nine mil-
lion dollars. The expenditure on cap-
ital account he placed at \$12,500,000,
which, when added to the ordinary ex-
penditure after deducting sinking fund,
amounted to the public debt for the
year 1904-5 about \$1,250,000.

The total estimated expenditure for
the year 1905-6, he placed at \$71,880,000.
The revenue would more than meet this.
Besides this there would be \$10,080,472
required on capital account
owing to the building of the Transcon-
tinental road.

Mr. Fielding makes provision for the
return of American silver to the United
States.

The tariff commission will meet in all
the principal cities in Canada during re-
cess, and he expected to have a revision
for next session. The commission was
to visit British Columbia. The revision
will be on the same lines as he announ-
ced last year.

The tariff changes are: The duty on
rolled oats is made 90 cents per hun-
dred; dry white lead, now 5 per cent,
is increased to 30 per cent, and on
white lead, ground in oil, now 25 per
cent, is made 35 per cent. This change
is made for the benefit of British Colum-
bia. African light wines are made 25
cents per gallon, and Australian wines
could have the same privilege if the
Commonwealth joined Canada in the
preference.

YACHTING AT BELLINGHAM.

Gwendolyn Beat Gwendolyn, of Victoria, on
Time Allowance.

(Special to the Times.)

Bellingham, July 6.—"n the yacht race
yesterday, Gwendolyn, Victoria, sailed
the course in 2 hours 20 seconds, while Gwen-
doline, Seattle, covered it in 2 hours, 1 minute
and 15 seconds. On a basis of 3 minutes
time allowance, however, the Seattle boat
secured first place in A class.

Two-Step, Bellingham, of C class, far out-
sailed everything else in the fleet, cover-
ing the finishing line in 2 hours, 27 minutes, 30
seconds, from the time of start. Empress,
the second boat, required 3 hours, 7 min-
utes.

Arbutus, Bellingham, won the B class
prize, 3 hours, 3 minutes, with Arbutus,
Bellingham, which had an accident to its
mainmast, twelve minutes behind.

A banquet was given last night for the
visiting yachtsmen.

SURVEY PARTIES GO OUT NEXT WEEK

C. P. R. Will Make Full Investigations Into
the Lands of E. & N. Belt Preparatory
to Opening it Up.

Interviewed last evening J. S. Dennis,
land commissioner of the C. P. R., stated
that as yet it was not possible to fully
outline the plans which the company had
in view relative to the lands recently ac-
quired on Vancouver Island. Until the
character of the territory was ascer-
tained it would be impossible to make definite
arrangements as to the disposition of the
resources into which they had come into
possession.

Mr. Dennis is, however, very sanguine
in his hopes respecting the Island and
Victoria. He thinks that all Victorians
need to cultivate is an optimistic spirit,
and that the place is bound to advance.

The railway arrangements, on the line
of the E. & N. are outside of his particu-
lar branch, and so he is not in a
position to say what the company's in-
tentions are with respect to putting on a
double service, or any other changes
which may be brought about.

He admitted that the company had in
view a scheme for

Extensive Advertising

of the Island. This will, it is understood,
give special attention to the advantages
which it possesses as a field for agricul-
ture and horticulture.

As referred to some time ago in the
Times, arrangements are being made for
a careful survey of the lands in the E. &
N. railway belt for the purpose of classi-
fication, and in order to ascertain just
what the character of the different sec-
tions are. The arrangements Mr. Dennis
said for this work were not quite com-
plete yet.

There are in the city W. A. Thomp-
son, the chief land examiner of the com-
pany, and William Ryan, a timber spe-
cialist. The surveys will be carried out
under the charge of these two men, and
four parties will be organized with head-
quarters in Victoria, Nanaimo, Alberni
and Comox respectively. The parties, as
far as possible, are made up of local men,
and will be ready to take the field next
week.

The weather conditions for the work
are admirable, and good progress can
be made. The names of those who will
head the parties are not yet announced
by Mr. Dennis.

In addition to these land prospecting
parties, a fifth, under the charge of a
railway engineer, will look into the pos-
sibilities for building branch lines of rail-
way from the present road to points
which it may be deemed necessary to
reach for

Agricultural Purposes

and for the extension of the railway to
the northern part of the Island. It is
fully expected that the E. & N. will be
extended at least to Comox in the near
future.

Everything indicates that the C. P. R.
intends to pursue a progressive policy
with respect to Vancouver Island. The
object of the company is to open up the
country as quickly as possible, and thus
increase the local trade on the line, and
the through business.

The land commissioner has the highest
hopes with respect to British Columbia
fruit trade. He knows the Northwest
market and its possibilities, and looks to
British Columbia having an unlimited
market there. In this trade he appar-
ently expects Vancouver Island to have its
share. The rich valleys, many of which
are still heavily wooded, will as soon as
possible be brought under cultivation and
furnish a steady trade. The local mar-
ket is not pretended to be sufficient
to consume the output of the Island

MRS. A. G. HORNE DEAD.

Arrived at Nanaimo From England in
1887.

(Special to the Times.)

Nanaimo, July 6.—Mrs. A. G. Horne,
sister of ex-Mayor Bate and widow of
the late A. G. Horne, one of the first
Hudson Bay officials, died to-day, aged
64. She came here in 1887 from Eng-
land, and was a native of Bromwich.
Mrs. Horne was one of the best known
of old-timers in the district. She leaves
four sons and two daughters, including
Mrs. Fred Brown, Victoria.

CROP REPORT.

No Complaints From Any Point on the
Canadian Pacific System.

(Associated Press.)

Winnipeg, July 6.—The Canadian Pacific
crop report, issued this morning for the
week, holds its sharp tone. There is not a
word of complaint from any point on the
system. Plenty of rain has fallen, but no
damage is reported, and with continued
warm weather the wheat will soon be in
the shoot blade. The growth during the
past ten days has been very rapid.

DIED OF BRAIN TROUBLE.

(Associated Press.)

Provincetown, Mass., July 6.—W. A. F.
Kipp, private secretary to President Cleve-
land during his first term, died at a local
sanitarium early to-day from brain trouble.

ACCUSED OF THEFT.

Woman Charged With Stealing a Pearl
Necklace Worth \$10,000.

(Associated Press.)

London, July 6.—"Annie Grant," of
Chicago, claiming to be an actress, was
committed to-day at the police court to
stand trial at the Old Bailey on a charge
of stealing a pearl necklace worth \$10-
000 from Christie's auction rooms.

The woman, whose real name is
thought to be Annie Gleason, according
to the prosecuting counsel, visited Chris-
tie's, inspected the necklace and secured a
duplicate of imitation pearls, which on a
second visit she substituted for the
genuine, while the attendant's back was
turned.

The prisoner had a continental pas-
port at the American embassy six months
ago in the name of Annie M. Grant,
Chicago, but nothing further is known of
her.

DR. C. L. LARGE DEAD.

(Associated Press.)

Winnipeg, July 5.—The death occur-
red at the Brandon hospital of Dr. C. L.
Large, of Sinclair. The deceased gentle-
man was widely known in this part of
the province, and had many friends and
acquaintances in Brandon, where he was
a frequent visitor. For several years Dr.
Large practiced in Alexander, and from
there he went to Griswold, but for some
time past his home has been at Sinclair.

Mutineers HAVE NOT BEEN TAKEN

REPORTED SAILING OF RUSSIAN BATTLESHIP

Crew Has Issued a Manifesto to Powers Announcing Start of Civil War.

St. Petersburg, July 6.—While no official confirmation is obtainable, the Associated Press has been informed by a trustworthy source that the admiral has received news that the *Kniaz Potemkin*, after shipping coal, provisions and medicines, is again at large in the Black Sea, and that her destination is unknown. Whether the report of the sailing of the battleship is true or not, the crew took a remarkable step yesterday when, with the solemnity of a provisional government, it issued a manifesto addressed to the powers announcing that civil war had begun against the existing regime in Russia, and pledging the inviolability of foreign shipping and foreign ports.

This action doubtless was taken to quiet the apprehension of foreign powers and to leave no excuse for the sending of warships through the Bosphorus to effect the capture of the battleship, which until now Russia's Black Sea fleet dared not attempt. This move of the mutineers stamps the commander of the crew as a leader far above the class of the ordinary sailor, and strengthens the opinion that he is not a member of the original crew, but one of the revolutionaries who went on board at Odessa. The issuance of the manifesto lends a certain dignity to the mutiny, and proves that the crew and their commander have no desire that the world should believe them to be mere outlaws, but that they should be looked upon as seriously raising the standard of revolution. Nothing has been received to confirm the supposition that the request for a doctor at Theodosia indicated a struggle for supremacy aboard.

According to a rumor printed in an afternoon paper, the ship's strong box

contained \$375,000, and the mutineers therefore would be well supplied with money. In circles closely in touch with the revolutionists it is regarded as a foregone conclusion that the commander of the *Kniaz Potemkin* will head for Pola or Batoum, where the revolutionists are exceedingly strong, in the hope of inducing

A General Rising. With the authorities in the Caucasus almost powerless to prevent it, such contingency is by no means impossible. Dispatches from Tiflis received last night say that reports of the rioting at Odessa and the mutiny on the *Kniaz Potemkin* has aroused the most intense interest and the wildest joy among the revolutionists. The receipt of the reports was followed immediately by a complete strike, even the lamp-lighters quitting work. The city is in darkness, and the inhabitants generally are fleeing to the northward. The Emperor Nicholas II., the crew of which is reported to have mutinied at Constantinople, is a Russian merchantman. Considerable anxiety is felt because the cruiser *Chironez*, which was due at Sebastopol on Monday, has not yet arrived.

DEMANDED SUPPLY OF COAL AND PROVISIONS.

Theodosia, Crimea, July 6.—Summoned by the *Kniaz Potemkin*, representatives of the council went on board the battleship and were received in the admiral's cabin by the commanding officer. The commission demanded the delivery of 500 tons of coal and provisions of various kinds within twenty-four hours, and threatened that in the event of non-compliance after due warning to the inhabitants the town would be bombarded.

The committee also proposed that the mayor should transmit to the populace a proclamation demanding the termination of the war, a convocation of zemstvos, etc. Learning of the demands, many inhabitants fled the town. Many of the workmen insisted that the demands be granted.

A special meeting of the municipality was called, and the council consented to deliver the provisions, but refused to comply with the demand for coal, for the reason that the town had none.

UNDER CONTROL OF EXECUTIVE COMMITTEE.

London, July 6.—It is understood that the movements of the *Kniaz Potemkin* are receiving the serious attention of the powers, who are exchanging views of the possible necessity of taking joint measures to protect neutral commerce in the Black Sea. According to the Associated Press dispatches from Vienna, however, nothing will be done, even in the shape of joint representations to the Russian government, except in the last extremity, it being desired to avoid wounding Russia's susceptibilities.

Special dispatches from Constantinople give an unconfirmed report that the *Kniaz Potemkin* engaged two British officers at Kustendji.

According to a dispatch to the Standard from Kustendji, the *Kniaz Potemkin* is managed by an executive committee numbering fifty, and there is no sign of any officer on the ship.

The Odessa correspondence of the Standard asserts that the Black Sea squadron, including the *Georgi Pobedonozets*, has now been sent in search of the *Kniaz Potemkin*.

A meeting representing 20,000 Chinese was held at Canton, July 1st, to discuss the Chinese exclusion act. As a result the native Christians formed a petition to President Roosevelt, protesting against the exclusion act and pointing out the hardship it put upon merchants and students.

THE LATE JOHN HAY.

Memorial Services in St. Paul's Cathedral in Honor of Secretary of State.

London, July 5.—England today paid to the memory of United States Secretary of State Hay a tribute seldom accorded to a foreigner, when solemn memorial services were held in St. Paul's Cathedral in his honor. The edifice was crowded, the Archbishop of Canterbury, Dr. Davidson, Dean Gregory and Archdeacon Sinclair took part in the services. King Edward was represented by the Earl of Dublin, Premier Balfour was unable to attend as the House of Commons was in session, and was represented by Malcolm M. Ramsey. Among others present were Marquis and Marchioness Lansdowne, Lord Halsbury, Lord High Chancellor and Lord Mayor and sheriffs in their robes of office.

Earl Spencer, the Marquis of Bath, Lord Tweedmouth, the Duke of Marlborough, the Duke of Portland, the Canadian High Commissioner, the Mexican and Cuban ministers and representatives of the embassies and legations also were present. The American colony was fully represented, including Ambassador and Mrs. Whitlaw Reid and the staff of the embassy, and Consul-General Wynn and staff of the consulate.

PEACE WOULD BE MISFORTUNE.

Says Gorky, as It Would Check Reform in Russia.

St. Petersburg, July 5.—Maxim Gorky, the northern, who is living at Kholm, a small village on the coast of Finland, has refused a flattering offer to go on a lecture tour in the United States, preferring to remain where he is and be on hand at the hour of aiding the work of emancipating Russia. Gorky is one of the recognized leaders of the constitution, and is visited daily by persons from all parts of Russia. He has a large income, but gives the major portion of it to the cause which he has at heart. Gorky is a great admirer of the United States and President Roosevelt, but while he gives unstinted praise to the President's efforts to bring the war to an end, he says he thinks that from a Russian standpoint it would be a misfortune.

"It has opened the eyes of the country to the impossibility of the present regime and has already produced changes which were hardly dreamed of two years ago. If peace should come now the government would be able to turn its attention to the interior, and possibly check the work of reform."

Maxim Gorky's health has much improved. His attorneys are making plans for his defence of the charge of precipitating the revolutionary riots, which they hope to convert into a political demonstration, and are subpoenaing ministers of state and other high personages.

THE ARCH-ENEMY OF THE AGE.

Not war, more deadly than ever this modern battery—but Catarrh, which leads to consumption and usually kills more than famine and war combined. The doctors now successfully fight catarrh with a remedy that never fails—"Catarrhona." It's death to every type of catarrh. It destroys every root and branch of the disease so thoroughly that a relapse need never be feared. It troubles with colds, nasal or throat catarrh, or subject to bronchitis or asthma use Catarrhona and you'll be cured forever.

TORNADO IN TEXAS.

Twenty-Four Deaths Reported—Many People Injured.

Nacoma, Texas, July 5.—A tornado and thunderstorm passed a few miles west and south of here this morning, killing fourteen persons and injuring many others and destroying a number of houses. The latest reports from the storm-swept district give the following casualties: Dead, Mrs. C. O. Shakerford, Miss Shakerford, Mrs. E. E. Tumbleton and three children; Caleb White, Mrs. Irb Williams. Frank Enkin was killed by lightning.

Many farm houses were swept entirely away. The school houses three miles west of here were damaged. Reports of the wind and of the tornado are still coming in. The number of killed and injured will probably reach sixty.

More Deaths.

Montague, Texas, July 5.—Ten persons are dead as a result of a tornado that passed over Montague this afternoon. They are A. P. Earl, Miss Sadie Earl, Burn E. Earl, baby of Lawrence Pillow, the Tomlinson family, consisting of husband, wife and four children. Many homes were demolished, including fifteen dwellings. The tornado lasted perhaps thirty minutes. Hundreds of head of stock were killed.

VANCOUVER NEWS.

Mr. Justice Morrison on Monday handed down judgment in the case of the city of Vancouver vs. the B. C. Telephone company. The judgment is a very exhaustive one and occupies several typewritten sheets. The gist of it all is contained in the two last paragraphs, which state that in the opinion of the court the city sustained no damages; that the city engineer in appending his signature to the plans of the company gave the consent contemplated by the legislature; and finally on these grounds the injunction sought by the city is refused.

The many citizens who crowded into the council chamber of the city hall on Tuesday evening in expectation of hearing a discussion on the vexed telephone controversy, were not disappointed. The

whole matter crystallized at last in a resolution to leave the matter over for one week to see if the committee appointed for the purpose could not arrive at some amicable settlement with the Telephone company and failing that the question will appeal to the full council against Mr. Justice Morrison's decision. The appeal was decided on the advice of Joseph Martin, K.C., who was present to address the council on the subject by invitation of the mayor.

President Wm. Godfrey occupied the chair at the annual meeting of the Vancouver Tourist Association which was held Monday night in the rooms of the Association. The report of the treasurer, J. J. Banfield, which was unanimously adopted, showed total receipts of \$5,310.50 and expenditure of \$5,380.43. The balance in hand is \$487.14, while there are unpaid liabilities of about \$250. The election of officers for the ensuing year was then proceeded with, resulting as follows: Hon. president, His Worship Mayor Buscombe; president, H. C. Clarke; vice-presidents, F. J. Proctor, W. C. Nichol; hon. treasurer, J. J. Banfield; secretary, W. E. Plummer; executive committee, Dr. R. D. Grant, R. K. Houliate, W. D. Haywood, Campbell Swenson, E. J. Coyle, Wm. Godfrey, B. P. Dickson and R. J. Leckie.

The death of Geo. Blakely, assistant purser on the R. M. S. Tartar, took place in St. Paul's hospital at 10 o'clock on Tuesday night. Mr. Blakely was 24 years of age and unmarried. Death resulted from typhoid fever.

DODD'S KIDNEY PILLS

FOR RHEUMATISM, GRAVEL, BRUISES, DISLOCATIONS, SCALDS, BURNS, SORES, ETC.

THE ABOVE ILLUSTRATES THE RAPID GROWTH OF FOOT ELM. Merit wins with Canadians. 2 or 3 years ago the country was full of imitations of this most wonderful remedy for all kinds of foot troubles. The ever-increasing popularity of the original remedy, Foot Elm, has almost entirely driven away imitations off the market, and to-day if you ask for

Real Estate and Insurance Agents, 9 and 11 Trounce Avenue.

The Canadian-Australian shipping company would not be renewed unless the subsidy was increased.

The Sydney Morning Herald in speaking of the contract says: "The contract is for a period of five years, broken by the Commonwealth with the general post office. So far back as 1893 New South Wales and Canada granted an annual subsidy of £35,000 for six years, New Zealand contributing £7,500 in consideration of Wellington being made a port of call. When the contract was renewed in 1899 New Zealand dropped out, and Queensland joined in, South Australia and Victoria joining with Canada, and in 1903 the present agreement was made for a term of two years, the subsidy paid being £30,000, to which Canada contributed £4,000, New South Wales £13,636, Queensland £10,227, and Fiji £2,040. The company finds it has been steadily losing money over the business, and it is therefore not disposed to carry the mails for less than £30,000 in the subsidy. This increase is stated to be something like £5,000 or £7,000 per annum, of which Canada, it is said, agreed to give two-thirds, leaving the balance to be made up by the Commonwealth. The question is whether the Commonwealth would be justified in following Canada's lead in the matter. Of course it will be a question of the comparative steamship-trading between Australia and America—the Oceanic Steamship Company of San Francisco—but in this case the Commonwealth is not directly represented. It is New Zealand which has made the agreement with the American company—an agreement which expires towards the end of next year. The Fed-

**SOUTHERN ISLANDS
DEVASTATED BY SEA**

**TOWNSHIPS RUINED
AND MANY LIVES LOST**

Australians Have Not Yet Renewed Canadian Mail Subsidy—Wreck of French Ship.

News of a typhoon of unprecedented violence in the South Seas, resulting in wholesale destruction of both life and property, was brought by the R. M. S. Miowera yesterday. The full extent of the damage done was not learned at Sydney up to the time the Australian liner sailed, but Capt. Fluegel, of the Germania, which took the intelligence to Sydney, stated that two of the islands in the Caroline group—Ponopi and Mausae—had been devastated, and that enormous losses had been sustained.

The hurricane which wrought such havoc lasted for less than two hours, and died away as quickly as it came. From what the islanders told Captaine

thly occasional showers and thunderstorms.

Cholera and Diarrhoea
Remedy.**

Don't put yourself in this man's plight but keep a bottle of this remedy in your home. There is nothing so good for Colic, Cholera, Morbus, Dysentery, Diarrhoea, as this equally valuable Summer Complaint and Cholera Infantum and has saved the lives of children than any other medicine in the world.

When reduced with water and sweetened it is pleasant to take.

You, or some one of your family, are sure to need this remedy sooner or later and when that time comes you will be happy you will need it quickly. Do not buy it now and be prepared for an emergency! Price, 35 cents.

and is, a cwt. for other matter, but the postmaster-general announces in this morning's *hank* that he has determined to increase the payment for letters to 8s. 7d. per lb. This is due to the strong representations made by the New Zealand postmaster-general. But, even with the better feeling, thus created, the Commonwealth has no guarantee for the continuance of direct mail service across the Pacific if it is left to the contract with the Canadian Australian company is not renewed.

"The Federal ministry has had the question under consideration for some time, but as far as can be ascertained nothing has been done. It is understood that the Government will ask the company in addition to the subsidy now paid is about £2,500. Canada has all through strongly supported this service, and is said to be prepared to pay her share of the increased subsidy, which is about one-third more than that of Australia. The trustees of the company state that Canada promises large developments in the near future, and it is pointed out that the crews are all signed on in Australia under Australian articles.

"There are several matters, such as provision of space for perishable produce, speed of boats, and so on, on which the Government has not yet formed an opinion, and the postmaster-general says it is possible that tenders for the service may be invited before the end of the present year, although the present contract has about two and a half years to run."

Barque Weygold.

The shipwrecked officers and crew of

on an uninhabited island in the Auckland group, arrived at Sydney early last month. The crew abandoned their ship at sea when the vessel was rapidly breaking up. For several days the castaways existed on seabirds, shags, and seals, and fortunately there was an ample supply of fresh water.

ABOUT VICTORIA.

Iowa Writer Gives His Impressions in Home Paper.

C. A. Fay, of Clifton, Iowa, who was here a short time ago on a brief visit, gives his impressions of Victoria thus:

Victoria, B. C., is a thriving city and reaped of 25,000 population, is the west outlet to the Orient and enjoys the distinction of having the most equable summer climate of any city on the coast with just rain enough to bring vegetation out to its fullest extent. The atmosphere was most bracing and invigorating. The residents are hardly looking the city having a very low death rate. In the winter they rarely have snow and no zero weather, although they are much farther north than we are. The city

An eleven mile, 280 miles long, along the banks of the Straits and about the city and parks was the finest scenic ride of its character we have ever taken, and one which few tourists fail to arrange themselves for. These drives made Victoria famous.

Work Point barracks and the naval station at Esquimalt, the only station on the British government on the Pacific are interesting points. Other places of interest are the parliament buildings, docks, museum and a trip through Victoria's Chinatown.

The hotel is a very comfortable one, the rates being much milder than similar houses in the States. Victoria has very few policemen. It is explained that the people have to be so careful there is no way of escaping from the Island. It is odd to see the conductors on the street cars collect fares by passing a contribution box and then taking the fare from the box. It is not so much as a deacon at church, nor ever molest it. They get on and take the cars from the left side.

Victoria has a very pretty reverend

water fall caused by the high fine run
the water is a narrow gorge, forming a
beautiful fall and rapids when moving
in either direction.

C. P. R. AND THE ISLAND.

The fact that Vancouver Island with its almost boundless stores of natural wealth and its unequalled climatic attractions should have remained for so many years in a practically dormant and stagnant state from a business point of view has long been a perplexing matter to observant minds.

There were reasons, perfectly well understood to those conversant with the facts, but not apparent to superficial critics, why the industrial progress of the Island was held in leash.

The directors-general in the past of the affairs of British Columbia, and of Canada, admittedly with the best intentions in the world, created the conditions which were long an insurmountable barrier to progress. Men of faith knew that in time the obstacles to advancement and to settlement upon Vancouver Island would be removed.

The belief is current that at last the tide has turned and that the most inviting portion of the Canadian Dominion is about to come into its inheritance of prosperity.

The authorities of the Canadian Pacific Railway, whose business methods from the point of view of the said authorities are bound to take an admirable and far-seeing, have at last included Vancouver Island in their field of exploitation. Having acquired a large portion of the Island, and with infallible judgment comprehending the potentialities therein contained, they are going to set about its exploitation and development with characteristic energy.

Having accomplished miracles under conditions in the Northwest far less inviting, there is little reason to doubt that they will succeed here. The work of converting the wilderness of forest into a garden of productivity will be one of considerable magnitude; but there is a great and ever-increasing demand on the prairies for all that we can produce here in abundance and of superior quality. The C. P. R., with its comprehensive understanding of the conditions in all parts of Canada, knows that a rich reward will pour into its treasury in due time for all that it does to stimulate production on Vancouver Island. Therefore it is just as natural for the company to undertake the work of clearing and encouraging settlement upon our dormant land as it is for it to endeavor by all the means it can command to secure a firm grip upon transportation in Southern British Columbia.

In its policy of development it is incumbent upon all British Columbians to wish the C. P. R. the most complete measure of success, because we shall all share in the prosperity it creates. In its policy of excluding competition we are all just as firmly bound to oppose it, because it is not good for the public nor for transportation corporations that monopoly should rule.

THE DIRT IS NOT FLYING.

The new diplomacy of President Roosevelt and of his energetic colleague Secretary Taft, after the abrogation of the Clayton-Bulwer treaty, secured the creation of a new republic at the Isthmus of Panama, but still the dirt is not flying like chaff and the prospects of the completion of the much-desired canal within the lifetime of the present generation are not bright. The causes of the delay are not clear to people who are not permitted an insight into the workings of things in the inner circles.

All that is known definitely is that the first canal commission was not a

strenuous body. It did not move swiftly enough to satisfy the desires of the energetic president of the great republic. So it was discharged without ceremony and the government took the general direction of affairs into its own eager hands. A new engineer was appointed at a salary of twenty-five thousand dollars a year. Now the engineer of whom great things were expected has resigned, incurring the wrath and resentment of Secretary Taft, who in his indignation has accused the deserter of lack of professional honor and ordinary patriotism.

It has been suggested that the great railway companies, who dread the competition of the canal, are at the root of the trouble which has culminated in the resignation of Mr. Wallace, the chief engineer. That of course is mere conjecture. There is no apparent reason why the railways should be alarmed. At the rate of progress that was being made the prospects of the canal being cut and compelling the reduction of rates within such a period as short-lived humanity has any right to contemplate were very remote. Mr. Wallace admits that he has been offered employment by a private corporation at a rate of remuneration of sixty thousand dollars a year, which would be a great temptation to patriots of the calibre of either President Roosevelt or Secretary Taft. It is not clear why an engineer should sacrifice his prospects on the altar of patriotism. So Mr. Wallace says, and there are few who will not agree with him, he says further that there was no guarantee that his services might not be dispensed with on short notice, and he cannot understand why a moral obligation should rest upon him to abide by the provisions of an agreement which was merely binding upon one of the parties to the contract. Mr. Taft says the honor of having his name associated with, and his eternal fame connected with, the greatest engineering work of all time should have been sufficient to induce Mr. Wallace to remain in the employ of the republic. But this is an age of utilitarianism, and if Mr. Taft were not very angry he would perhaps be ready to admit that the difference between twenty-five thousand dollars a year and an uncertainty and sixty thousand dollars a year coupled with a contract is very tempting to a frail mortal living amongst a people who attach so much value to dollars.

Mr. Wallace, however, does not urge the dollars and cents aspect of the matter at all as an excuse for his defection. He hints that there are various reasons for his sensational resignation of his charge. Professional ethics will not permit him to justify his action, but it is assumed that the conditions at the Isthmus are not all that an engineer carrying upon his shoulders enormous responsibilities could desire. Mr. Wallace apparently does not think a lock canal will fulfil the purposes for which the canal is to be dug. He prefers a sea level work, which would involve an enormously increased expenditure and an indefinite prolongation of the period of construction. Mr. Roosevelt is a very impatient man, and he appears to have conferred upon Mr. Taft as much of his spirit as could be spared. The two statesmen seem to think the dirt cannot be made to fly too fast if they are to officiate at the opening of this greatest engineering feat carried out under the auspices of the greatest government of the greatest nation the world has ever seen. Mr. Wallace has found that, in addition to other perplexities, the sanitary arrangements are defective. No precautions were taken to guard against the ill that are so fatal to animal life in the tropics; consequently there is a great deal of sickness, and sick men, whether white, yellow or black, cannot make dirt fly fast enough to suit the requirements of President Roosevelt.

As all parts of the Pacific Coast are deeply interested in the completion of the Isthmian canal, the news of the difficulties the United States government is meeting with is not gratifying. A new engineer has been appointed, but it is understood that he also will find considerable difficulty in meeting the exacting demands of Roosevelt and Taft.

WONDERS OF THE NEW CENTURY.

American millionaires are the wonder and envy of the world. Andrew Carnegie of Skibo distributes his millions for educational and general purposes, and discourses "academically" on the beauties of "the simple life." Mr. Rockefeller hands his well-gotten gains out by the tens of millions and holds forth on the vanities of earth and exhorts mortals to fix their minds and to prepare their souls for higher things. Mr. Kessler, of New York, is a comparative "butter-in" in the millionaire class so far as we know. But he has been giving dinners in London which are the wonder of a startled world. He entertained a party of twenty-four persons recently, and settled a dinner bill amounting to more than eight thousand dollars. In the language of the street, "that is certainly going some." The table on which the feast was spread was placed in a large Venetian gondola set in the midst of an artificial lake in which levelly white ducks swim about. In a smaller gondola a band was stationed. The walls and ceiling were covered with canvas, on which were painted familiar Venetian street scenes. The waiters were dressed as gondoliers. The display of flowers was marvellously beautiful. Among the entertainers was the tenor, Caruso. And to think that the people of the United States are so simple as to tolerate the fiscal system under

LIGHT, DELICATE FLAVOR

E. J. BURKE'S

OLD IRISH WHISKEY

We cannot too often call attention to this particular quality in Burke's Irish, a flavor and strength that particularly commends itself to the gentle and the wise, the connoisseurs and the gentlemen.

which these philanthropists rob them! That a nation whose average of intelligence is far above the standard should be such fools is one of the modern mysteries. The hundreds of millions of dollars of unlawful gains under sane laws would be the property of the whole people and would go to increasing the comforts of the multitude. Immunity from outside competition, while it has enabled the few to become rich, has also taught them tricks for the overcoming of internal or domestic competition. So the trusts and the combines are supreme. They "soak" the masses, revel in luxury, and such of them as desire to pose as philanthropists patronizingly distribute largesse or alms to various institutions. The American millionaire is a living, leering reproach to the American people.

If there were unity of purpose and definiteness of aim in the actions of the Russian millionaires who are perplexing the officers of the Czar on the Black Sea, we might hope that something of value to the Russian people could be accomplished. But there is apparently neither definiteness of aim nor unity of purpose in a warship perambulating from one port to another and demanding sustenance from the shoregoers of the

Crimea. Still there is always the possibility of leaders being raised up to take command and direct the affairs of the insurgents into intelligent channels. The representatives of the quality of law and order that is current in Russia appear to be impotent at present for either good or evil. While they are halting between two opinions—if they have any opinions at all—are incapable of embodying them in action owing to the state of mind of the instrument which hitherto has never failed them, the army—the state of the public mind is becoming more dangerous. If the idea should penetrate the gray matter of the not quite half-liberated serf that he has his complete freedom absolutely in his own hands, the Czar may say farewell to his throne and the Grand Dukes bid a tearful goodbye to their graft.

MAKES FOR PEACE.

Toronto Star.

Five Russian battleships went down in the Tsu battle, and not an officer was saved from any one of them. When two great fleets meet and destroy each other in this complete way war will receive a lasting discouragement.

Greenland now has nearly 12,000 inhabitants.

Sunday, July 9th, another popular excursion by the steamer Iroquois.

Spring and Summer Overcoats reduced to \$10, \$12 and \$15 at Fit-Reform Wardrobe, 73 Government street.

Adjutant and Mrs. Nelson, who have been in charge of the local corps of the Salvation Army for four months, will bid farewell to the city on Friday night.

This morning Mr. Callahan pleaded guilty in the provincial police court to passing a cheque for \$10 on a bank in Victoria, in which he had no money deposited. He was sentenced to two months' imprisonment.

A letter has been received from one of the Victoria members of the Alaska boundary survey which states that the party has been somewhat retarded by its movements by the great depth of snow and flooded rivers. Inland from Haines the party encountered snow three and four feet deep.

The cases put down for hearing at the civil sitting of the Supreme court have all been stood over. The full court cases have likewise been allowed to remain over. The judges will leave in a few days to attend the civil sittings in the interior thus winding up judicial business before vacation, which opens August 1st.

H. P. Johnson has resigned his position as organist and choirmaster of St. Barnabas' church, and has been succeeded by A. Longfield. Mr. Johnson has been connected with the church since its opening, 14 years ago, and is one of the most capable organists in the city. He has always been very popular in the choir, and that he has given up his position will be a matter of general regret.

On Wednesday morning members of the Loyal Orange Lodge, No. 1,426, accompanied by the members of the Royal True Blue Lodge, will embark on the steamer Princess Victoria for Vancouver, and will join with brother Orangemen in celebrating the 12th of July. There is to be a big demonstration of the order in that city, and in order to accommodate local members the steamer will remain over in the Terminal City until 7 p.m.

"In Utah" will have its first production in this city at the Redmond theatre to-night. It is from the pen of Lem B. Parker, and from its first performance stock managers have recognized it as one of the best dramatic offerings of late years. In the hands of Miss Margaretta Fischer and her company it should prove a strong drawing card. There will be a number of new specialties between the acts. "In Utah" will fill out the week, with the regular Saturday matinee. The semi-military play "Love and Duty" will follow on Monday.

Dr. Price's CREAM BAKING POWDER

Improves the flavor and adds to the healthfulness of the food.

When outfitting for camp always take Dr. Price's Cream Baking Powder for good health and good food. It makes the finest flapjacks, biscuits and bread.

Never go into the woods away from a doctor with a cheap alum baking powder in the outfit. You want the best baking powder in the world—and it is most economical in the end.

The Cowan Co. Ltd.
TORONTO.

The Margherita Mandolin Club will hold its regular practice this evening at 8 o'clock sharp. A full attendance of members is requested.

The committee of the Catholic Sunday school picnic, meeting to-night at the Bishop's Palace, Yates street, wish to receive all their unused tickets.

Miss Ethel Grant and Miss Gladys Pitts, pupils of Miss Sill, have received diplomas from Toronto University as the result of a recent junior theory examination.

At to-morrow evening's meeting of the Far West lodge, K. of E. Deputy Grand Chancellor J. L. Smith will install the officers of the lodge for the ensuing term.

While actual construction has not yet begun on the superstructure of the new C. P. R. hotel, there is a great deal of work being done. This is by way of preparation. The contractors expect to proceed with the building operations early next week, but in the meanwhile are installing a plant for stone cutting, sawing and lifting, and for other purposes. Already they have the granite here for the big structure, and henceforth the other material required will arrive as fast as it can be used.

J. S. Larke, commercial agent for Canada in Australia, who was in the city yesterday on route east, was given a send-off by the Independent Order of Foresters before leaving Sydney, and presentations were made to him by the members of Court Commonwealth, and also by the high standing committee. Mr. Larke will represent the New South Wales members of the I. O. F. at the triennial session to be held in August next at Atlantic City. Mr. Larke has with him a series of slides lent him by the Australian government, and the lectures he purposes giving will, it is thought, induce business men, tourists and others, to visit that country.

THE BLOOD IS THE LIFE.

Owing to faulty actions of the kidneys and liver, the blood becomes filled with disease germs that imperil health. The first warning is a headache, dizziness, backache and lack of vital energy. Act quickly if you would avoid the terrible ravages of chronic kidney complaint. Get Dr. Hamilton's Pills to-day; they cure kidney and liver complaint for all time. No medicine relieves so promptly, nothing in the world of medicine cures more thoroughly. For good blood, clear complexion, healthy appetite, the proper treatment is Dr. Hamilton's Pills. 25c. per box, at all dealers.

LEFT LAST NIGHT.

Mining Institute Closed Business Yesterday and Started For the North.

The members of the American Institute of Mining Engineers left last night for Vancouver, and are spending the day in that city before leaving for the Yukon to-night.

Yesterday afternoon the business situation was brought to a close. W. M. Brewer, of this city, gave an address, in which he outlined the trip to the north describing briefly the points which would be passed. Mr. Brewer's knowledge of the route and the places to be called at made the address a very interesting one.

At the close of it a vote of thanks proposed by W. J. Sutton and seconded by Dr. Raymond was accorded him.

The business was then formally closed. B. Hunt, past president, who was in the chair, gave expression to the pleasure the institute had had in Victoria, and thanked all who had contributed to this during the stay.

Dr. Raymond also spoke of the kindness which had been bestowed upon the party, and said that after returning to the East letters of appreciation would be sent to the individual members of the local committee for their treatment of the delegation.

On the invitation of His Honor the Lieutenant-Governor the members of the institute then proceeded to Government House, where a reception was held. In addition to the members composing the party of visitors there were also present members of the government and a number of citizens of Victoria.

During the evening the members of the party went on board the steamer preparatory to leaving at 1 o'clock. All expressed themselves as delighted with Victoria and surroundings, and hoped to be able to again visit the city.

SUCCESSFUL RECITAL.

Given by G. Jennings Burnett in St. John's Church Last Evening.

The organ recital by G. Jennings Burnett in St. John's church last evening was, as usual, a very successful and enjoyable event. Mr. Burnett played in fine form his several selections, including "Peregrine," a composition of his own. Other numbers rendered by Mr. Burnett were the Introduction and Bridal Chorus from Lohengrin, A. B. Britto and Scuto (Lemore), "O Quanta Qualia," "The Pilgrim's Song of Hope," and Wely's Festival March in E Flat.

Mr. Burnett was ably assisted by Miss Winnifred Lugin, who sang "Consider the Lilies" in splendid style, and Gideon Hicks, who gave "It Is Enough." John Elgin, Novello's "Will Sing of Mercy" was sung by Miss Mae Todd, Miss Nellie Todd and Miss Jay. During the evening the chor sang Mr. Burnett's anthem "O Paradise," which promises to reach a wide range in the field of sacred music.

NEW SCHEME FOR BRITISH CRUISERS

THE FLYING SQUADRON
WILL VISIT CANADA

Six Warships Will Leave Gibraltar on First of August—Plans for Coast Steamers.

Advice has been received from London that the admiralty has completed arrangements for the dispatch of a flying squadron to visit its different stations. This move was forecasted at the time the fleet was withdrawn from Esquimaux. The visit is to be largely social in character.

When the admiralty devised the new scheme of redistribution of fleets and squadrons, some quarters off the globe where the flag of Great Britain had been more or less a familiar object, were deprived of the constant presence of those units of the fleet from whose masts this ensign was displayed.

Arrangements, however, have now been made by which the British flag will be shown to even the most remote parts of the habitable globe, not once or twice, but constantly.

Esquimaux is not included in the programme, but it is anticipated that when other remote stations are mentioned this place will not be overlooked.

This duty for the present has been allotted to the second cruiser squadron under the command of Prince Louis of Battenberg. The squadron consists of the following cruisers: Drake (flagship), Berwick, Cornwall, Cumberland and Essex. Another ship, which in all probability will be the Bedford, will be added, and the number thus brought up to six. The programme for the next two years includes visits to America and the west coast of Africa, to which will probably be added South America.

The officers and men of the squadron will meet with lavish hospitality from our brothers and cousins across the water, and opportunity will be afforded them of returning this hospitality, if not on the same lavish scale, at any rate in an adequate manner.

The flagship of the second cruiser squadron is to be provided with a ball room capable of dancing some 600 people, and this ball-room is to be supported by the boat deck. This is a skeleton deck above the upper deck, which extends more or less continuously between the masts.

On entering the ball-room, rendered bright and attractive by means of flowers and bunting, the visitor will imagine that he has found his way into a huge marquee. And such is indeed the case, for the striped roof and walls, where they are visible beneath the flags that decorate the interior, themselves conceal the tent-like erection of canvas which serves as a canopy to the floor. In order to hold this roof in place the hydraulic derricks, by means of which the boats are hoisted in and out, is to be called into requisition.

The programme of this American trip, though subject to alteration, will include a visit to Quebec, St. John's, Halifax, and New York, in the order named. A dance is to be given at Quebec, and probably two at New York; while it is probable that smaller ones will be given at the other places visited.

UNIQUE RECORD.

An A. B. who has just left the Glasgow ship Falklandbank, which arrived at Greenock from Vancouver, is anxious to know if his record can be beaten, says the Glasgow News. He has just completed 30 years' service as an able-bodied seaman in British deep-sea merchant ships, and has never sailed in steamships. He has been employed on the Falklandbank, Capt. Robbins, was here last summer, and she is not only a remarkable ship, but carried a remarkable skipper and crew.

NEW COAST LINERS.

Plans of the two new steamers to be built for the Pacific Coast Steamship company have been made public, and show some interesting details, says the San Francisco Chronicle. Only one of the proposed vessels is, however, to be built soon; construction of the other to follow after completion of the first, when, it is expected, many minor improvements may be possible. But both steamers are to have steel deck-houses, and each vessel will have a capacity for 300 cabin and 141 second-class passengers, besides cargo space for 2,000 tons of cargo and 750 tons of coal in the bunker. The steamers will be 405 feet, 6 inches in length, 44 feet, 6 inches in breadth, and 20 feet, 1 inch in depth. They must show an average speed of 14 knots, at a 22-foot draft. Of twenty-two steamers owned by the company only thirteen have steel or iron hulls, and nine are wooden.

A DAY LATE.

Steamship Queen on her next arrival here from San Francisco will be one day late owing to having sailed on the 5th instead of the 4th. The detention was due to the desire of the owners of the steamer to allow the crew to celebrate the national holiday ashore. In consequence the ship will not reach Victoria before to-morrow evening, the time when the Unstilla is due to sail for the Golden Gate. Another vessel of the Pacific Coast Steamship Company's fleet, the Spokane, will leave for points in Alaska

FOUND FOR FRASER.

Steamers Union, of the United Cannery Company, Vancouver, and Fraser are here from Vancouver to-day for a couple of loads of Indians, who are going to the Fraser to fish during the coming season. They have been arriving in strong numbers from points along the West Coast of this Island during the last few days, and taking up quarters temporarily on the Songhees reserve, awaiting the coming of the two steamers mentioned.

MARINE NOTES.

The report that the steamer Ramona will be withdrawn from the Vancouver-Seattle route has been confirmed. Trouble with the Marine Engineers' Association of Seattle is said to be the cause of the withdrawal of the steamer from service.

The ship Nivelle, discharging at the outer wharf will proceed to Vancouver, according to present expectations on Saturday. The Kinross, another sailing vessel in port, will leave for the Sound to-day or to-morrow.

The steamship Camosun, of the Union Steamship Company's fleet, Vancouver, has sailed north on her initial trip for points along the northern coast of British Columbia.

BASEBALL

EVERETT, 7, VICTORIA, 2

A special dispatch from Everett says: Two many passes by Boyle and the bunching of hits by the locals in the sixth gave Wednesday evening's game to Everett by a score of seven to two. Wallace on the part of Boyle spoiled Victoria's chances. Two of Everett's runs being scored on passes, one by hitting the batter and one on Howlett's error. The game was called in the last half of the eighth after Everett had two runs, two on bases and two out. Victoria blanked in the eighth. The score by innings follows:

Victoria	1	2	3	4	5	6	7	8	9	Total
Everett	0	0	1	0	0	1	0	0	0	2

Summary—Earned runs, Victoria, 1; Everett, 2. Struck out, by Boyle, 2; by Schoch, 7. Bases on balls, off Schoch, 1; off Boyle, 1. Two bag hits, Helmsmiller, Schoch. Home runs, Helmsmiller. Double plays, Burns to Raymond to Hulen. Hit by pitched ball, Raymond, Cook. Passed balls, McManus. Sacrifice hits, Schoch. Stolen bases, Hutchinson, Hulen, Burns, Helmsmiller (2), Cook (2), Altman (2), Raymond. Left on bases, Everett, 9; Victoria, 5. Time, 1 hour 35 minutes. Umpire, Huston. Attendance, six hundred.

OFFICERS ELECTED

At a meeting of the United Bank team, held last evening at the Victoria hotel, the following officers were elected: President, George Gillespie; vice-presidents, G. A. Taylor and W. F. Oliver; manager, W. G. Allister; assistant manager, E. G. Morley; captain, F. Winsty; vice-captain, J. Gibson; secretary-treasurer, H. W. Walker.

BANKERS VICTORIOUS

Last evening the United Bank nine and the employees of R. P. Rithet & Co. tried conclusions at Beacon Hill, the game resulting in a win for the former by a score of 13 to 10. The outcome was uncertain until the finish of the final inning. Rithet and Shanks pitched and caught respectively for the losing team. Winsty and Holden acted as battery for the winning nine.

PLAY TO-MORROW

The Independent and Y. M. C. A. teams will meet again to-morrow evening on the former's grounds at Beacon Hill. The last game resulted in a draw.

The Y. M. C. A. team will line-up as follows: Catcher, Spencer; pitcher, Clark; first base, Dack; second base, Whyte; third base, Northcott; short stop, McIntyre; left field, Gray; centre field, Whyte; right field, McKinnick. Umpire, S. Shanks.

YACHTING

RACES AT BELLINGHAM

The yacht Gwendoline, of Seattle, won the first class race at Bellingham yesterday over a fifteen-mile course. The finish between this boat and the Gwendol, of Victoria, was intensely exciting. The British boat crossed the line ahead, but Gwendoline's time allowance gave her the decision; Lavita, of Seattle, third.

B Class—Arbutus, Bellingham, first; Aridace, Bellingham second.

C Class—Two-Step, Bellingham, first; Empress, Seattle, second.

The only serious accident occurred to the Madeline, of Vancouver, which had her mainmast split and was compelled to retire when sailing close behind Arbutus.

THE MILE

At a meeting of the Victoria members of the B. C. R. A., held in the drill hall last evening, it was unanimously decided to go into camp during the matches at Richmond range. Those who have not already done so should notify the local secretary at once as to whether they intend to stay at camp, so that final arrangements may be made in good time. Programmes and entry forms can be had on application to Co. Sergeant-Major Caves. In connection with entries, members are reminded that a certificate of efficiency must accompany same, signed by their company officer. Blank forms will be found on the back of entry forms.

LACROSSE

POSTPONED TILL TUESDAY

The junior lacrosse match which was announced to take place between the Victoria West and Central teams this evening has been postponed until Tuesday evening next.

TUESDAY'S GAME

Commenting on Tuesday's game between the Vancouver and Seattle teams, the Seattle Post-Intelligencer says: "Better team play and more accurate shooting won for Seattle the championship lacrosse match at Madison park on Tuesday with the Vancouver twelve, by the score of 8 goals to 4."

"The day was an ideal one, and the largest crowd of the season was on hand."

"Vancouver put a fast team on the field and was confident of a victory. Seattle, however, had determined to finish with the home end of the score, and the game was a pretty one."

"Seattle started things going in the very first few minutes of play, and during the whole of the first quarter pressed hard on the Vancouver defence, with the result that the first period of play ended with Seattle having a lead of one goal."

"The second quarter saw about as pretty lacrosse as has been played in this West coast country. Both teams displayed high-class team work, and although the play was rough it was pretty to watch. Vancouver made the only score after some pretty work by Cameron and Godfrey."

"Seattle made things hum again in the third quarter, scoring three goals before the Vancouver defence seemed to awake. Then things became rough again and injured players went out in bunches."

"The last quarter was rather slow. The Seattle men were in much better physical

condition than their opponents and consequently they stood the hard game much better. The Vancouver home played poorly toward the end of the game, while the Seattle home kept the visitors' defence busy.

"The Seattle defence was strong, and played much better than at New Westminster ten days ago. McDonald, in goal, redeemed himself and made some excellent stops. York and Williamson helped to make a stone wall in front of the goal, while Hornsby and Green helped out the home when necessary. Wallace, at centre, played up well and was too fast for his check. Eddie Milne, Sandy Cowan and Cameron were a hard-working trio. Sandy proved to be so shifty that his check was lost in an endeavor to hold him. McManus played a good game, but showed a tendency to be too anxious to get rid of the ball when checked. Hague performed creditably at home."

For Vancouver, Reynolds was the star, and he shared the honors with Teddy Campbell, in goal, and Morrison and Payne, on the defence. The Vancouver team evidently had an off-day, and showed up rather poorly against the strong defence of the home team."

LAWN TENNIS

CHAMPIONSHIP GAMES

London, July 5.—In the semi-final round of the doubles in the tennis championship today, H. H. Smith and Frank L. Risley beat Holcombe Ward and Beals C. Wright, 6-2, 6-3, 6-2, 9-7.

VICTORIA v. J. B. A. A.

The return match between the Victoria Lawn Tennis Club and the J. B. A. A. will take place to-morrow afternoon on the J. B. A. A. courts, commencing at 4 p. m. The doubles will be the only games played on Friday, the singles taking place on Saturday.

The fixtures for to-morrow are: J. D. Hunter and F. T. Cornwall vs. J. Leeming and C. Schwengers; R. Carr Hilton and W. H. G. Phipps vs. G. Keefe and J. Camble; J. A. Rithet and A. T. Goward vs. B. P. Schwengers and P. A. Macrae.

Saturday's fixtures are: R. P. Schwengers vs. J. A. Rithet; F. A. Macrae vs. J. D. Hunter; C. Schwengers vs. B. Bell; J. Leeming vs. F. T. Cornwall; E. W. Carr Hilton vs. J. Camble; W. H. G. Phipps vs. G. Keefe.

EXECUTIVE MEETING

Messrs. Shephard & Jones Awarded Contract for Construction of Bathing Pavilion—Other Business.

Members of the executive of the Tourist Association held a meeting yesterday, when Messrs. Shephard & Jones were awarded the contract for the construction of a bathing pavilion on Dallas road. The work will be rushed and the pavilion should be ready for use at the end of the present month.

A communication was received from J. A. Turner, secretary to the Agent-General in London, who reads in part as follows: "I am directed to say that the box of Tourist Association pamphlets (700) was safely received this morning, and the same will be carefully distributed. I should add that they are very much admired."

The appended letter, addressed to Secretary Cutbush by V. F. Riddle, of Perth, Australia, was also received:

Dear Sir:—Two years ago I had the pleasure of spending a day in your delightful city, when I was en route to visit my native country—Scotland—and, like many another traveller, I was particularly charmed with the many attractive features of Victoria and its surroundings. In fact, I never recall my short visit without wishing I had been better informed before I came your way, when I should certainly have arranged to spend a week or two in exploring the beautiful country around me.

On reaching the coast docks by Japanese steamer, I got a copy of your illustrated booklet, "Picturesque Victoria," and I frequently look over it as I peruse the various records of my trip round the world, and wish I had some larger and more satisfactory pictorial souvenirs of your grand surroundings.

It is this wish that prompts me to write you now, and although I am quite a stranger to you, I hope you will understand my reasons for addressing you, which are simply that I desire to obtain some good pictures of your scenery, and that I know no one in your quarter of the world to whom I can apply for same. It may be possible for you in your official capacity to afford me the assistance I seek, and if you can do so I shall feel particularly grateful.

I was particularly impressed with the splendid Straits of Juan de Fuca as we steamed through it last June morning. I was much struck by the rugged and picturesque range, was very grand, and I should like very much to get a good sized print—photographic or otherwise—that would do justice to such a splendid subject. The little picture of the fourth page of your booklet indicates what a grand subject it is; and a large copy of such a picture would be most acceptable.

When in Victoria I got the usual little book of views, and I also got one admirable little photograph taken from the city side looking across your very handsome parliament buildings, beyond them the Straits; and the grand mountains rising behind. This combination forms one of the finest views I saw during my whole trip, and the little photograph is quite inadequate to its merits. A large print of this view would also be most acceptable.

Then I remember with much pleasure the picturesque rocky, and pine-clad coast out of the quarantine station; also the fine

views in the Sound on the way down to Seattle.

I shall take it as a great kindness if you will write and let me know whether the articles I wish are to be had and if you can assist me to procure them. I shall be only too glad to remit you any reasonable cost incurred for any suitable pictures or photographic views, etc., you may send. Awaiting the favor of your reply.

V. F. RIDDLE.

CHARGE AGAINST E. O. MALINS DISMISSED

Was Accused of Having Forged Certificate of Naturalization—The Judge's Comments.

The New-Westminster Columbian of Tuesday says:

"The charge against E. O. Malins of having forged a certificate of naturalization, heard to-day before Judge Henderson, was dismissed."

After the reading of the charge Mr. Whiteside, who appeared for the accused, entered the plea of "not guilty."

The evidence produced was the same as was heard in the preliminary hearing, the testimony of Registrar Cambridge as to the hand writing of Malins on the supposed certificate of naturalization and his statement that the applicant had never been noticed for 21 days or taken the usual prescribed course; the evidence of Olaf Olson, who had paid Malins \$5 for the supposed certificate and the statement of N. J. Larsen, in whose store the transaction had taken place between Malins and Olson. Mr. Whiteside refrained from cross-examining any of the witnesses.

When the evidence was all in Mr. Rows for the prosecution summed up the case against the prisoner, pointing out the false facts set forth in the supposed certificate of naturalization and the circumstances connecting Malins with the issuing of the same.

Mr. Whiteside based his argument for the defence on the statement that the certificate itself was not a forgery. While the facts in it were false, the paper itself was perfectly legal and so was the signature of the deputy registrar. The court seal was genuine and in the signature of the deputy registrar. The testimony of Olson and Larsen, said Mr. Whiteside, only went to prove the intent and had no weight at all as proof of a forgery having been committed. Then there was no corroborative evidence to back that given by Registrar Cambridge to the effect that the paper was in the hand writing of Malins and was not what it purported to be. Mr. Whiteside quoted numerous authorities, among others, Taschereau, who requires more than one witness to prove the forgery.

After hearing argument on both sides His Honor adjourned the court till 2:30 p. m. to look up the law in the case.

The court came to order shortly after the appointed hour, and as neither counsel had anything further to offer His Honor turned his attention to the winding up of the case.

"Since the adjournment," said Judge Henderson, "I have given the evidence and references in this case careful and even anxious attention. I was greatly impressed by the point raised by Mr. Whiteside of corroboration, and after having read carefully all the authorities cited by him, it seems to me that Taschereau's exposition of what constitutes the crime of forgery is most applicable to the case in hand. There it is noted that the crime of forgery is not confined to the falsification of money, but extends to seals as well. If the instrument is signed by the officer whose name it bears it is not false, though the facts set forth in it may be so, and the offence in that instance belongs to the class of obtaining money under false pretences. The prisoner must therefore be discharged on this count."

In answer to a question from the bench, Mr. Rows, for the prosecution, stated that at present there was no other charge against the accused, and he was under the impression that instructions were being waited from the attorney-general.

"I ask you," said His Honor, "if there is another charge against the accused, since the evidence warrants me in believing that there may be some offence against the code. The prisoner is discharged," and Malins walked from the dock a free man.

He lost no time in leaving the court room, and ten minutes later he was seen on his way towards the bridge. A rig was in waiting, and Mr. St. Andrew's church, and it was not many minutes till a cloud of dust on the south side of the river and moving toward Blaine hid the man. Up to 3:30 p. m. no word had been received from the attorney-general in answer to a message sent asking for instructions.

SALT SPRING ISLAND NOTES.

The six public schools on this Island closed for the summer holidays on the 23rd of June. At the Vestrius Bay school rolls of honor were awarded to the following: Regularity and punctuality, Pearl Norton; deportment, Thomas Mansell; proficiency, Lydia Mowat; prize for recitation, Edna Caldwell.

An excursion of C. P. R. employees at Vancouver, will come to Ganges Harbor on July 15th. The exhibition hall and grounds have been secured for the day. A band will be in attendance, and there will be sports and other attractions throughout the day.

A meeting of the directors of the Islands Agricultural Society was held in the exhibition hall at Ganges Harbor on Saturday. The question of holding a show this year was discussed, and it was finally agreed to leave the matter over till the general meeting on July 8th.

Fire which started in the basement of Hall's dry goods store, Everett, Wednesday, spread to several other establishments in the business centre, including the Daily Record office. The loss is \$50,000.

PROVINCIAL NEWS.

GRAND FORKS.

Development work on the Seattle mine, near this place, is being diligently prosecuted; the tunnel is now in 350 feet and the ore is improving as every foot is driven.

GRAND FORKS.

The Kettle Valley line depot was robbed some time on Tuesday night of between \$400 and \$500; the exact figures are not yet known. There is no clue to the robber.

FERNIE.

Coal-Creek has within the last two months undergone quite a change. The piers for the erection of the new tipples are nearly all completed. A large gang of men is at present constructing the approach to No. 2 mine and a foundation for a switch back to give No. 3 a connection, the mouths of both mines not being on the same level. Fifteen car-loads of steel and tools have so far arrived from Pittsburgh, Pa.

A new band has been organized, a welcome addition to Fernie.

PHOENIX.

On Wednesday Dr. Kingston, of Grand Forks, corner, empanelled a jury through Constable D. J. Darrauck, who inquired into the cause of the death of Frank Loster, who died in the Phoenix general hospital on Tuesday, a couple of hours after being taken there, as a result of injuries received while at work operating a drill in the Granby mines. Witnesses called were John McKenzie, who was with Loster at the time of the fatality; Dr. R. B. Boucher, the attending physician; John Swanson and James McGregor, provincial mining inspectors, who were immediately notified of the accident by wire, and who at once came over from Nelson. After hearing the testimony the jury returned a verdict of accidental death, without blame to the company.

Gustave Loeb, of the well known firm of Luhn, Loeb & Co., of New York, has returned to the East after spending several days in the Boundary. Most of the time was spent in Greenwood, and a day or two at the Mother Lodge mine, owned and operated by the British Columbia Copper Co., Ltd. Mr. Loeb was not a little surprised at the bodies of ore existing at the Mother Lodge mine, and at the vast tonnage that can still be taken out of that property.

Lorne A. Campbell, general manager of the West Kootenay Power & Light Company, was here Saturday from Rossland, looking after matters in connection with the right-of-way of the high tension pole line to connect Bonington Falls on the Kootenay river, with Grand Forks, Pakenia and Greenwood, via Rossland. P. W. Guernsey, engineer for the company, has the route laid out for some distance this side of Fourth of July creek, and within three or four miles of Phoenix. Another few days should see the preliminary surveys completed, and shortly thereafter the contract for clearing the right-of-way is expected to be awarded. The contractors on the 20-mile section from Rossland to Cascade are already at work, while from Cascade to Grand Forks, there will not be a large amount of clearing to be done, as it is, much of it, open country.

NELSON.

Another eagle of kingly proportions has been shot on Arrow lake. Near the narrows between the upper and lower lakes there seems to be a favored haunt for eagles. A few months ago a very large one was secured by the united efforts of the crew of the steamer Kootenay. Recently two parent birds were shot and a young eagle taken by the crew of the steamer Minto. The male bird is bigger than any previously reported in Kootenay, measuring seven feet six inches from tip to tip. The young bird will probably be added to Fred Bosquet's menagerie. As the steamer Minto, with Captain Fraser in command, was approaching Fire Valley, Watchman Douglas saw two gigantic eagles circling the tall cottonwood trees on the left of the western shore of the lake. He promptly called the attention of the captain and every available firearm on board was used, the captain, the mate, the purser, Baptiste, who was the hero of the last battle with eagles, and several others taking part. The first successful shot was made by the pilot, Walter Wright, who brought down the female. The male bird disappeared but by this time the nest had been discovered in the top of a cottonwood tree, 70 feet from the ground. Mate McCarthy put on a pair of climbers and, getting up about 30 feet, when he slipped and fell to the ground, fortunately without sustaining injuries. Assistant engineer Swan Peterson next attempted the task, and succeeded in reaching the nest. There he found a young bird which he threw down to his comrades, who secured it uninjured. Peterson's descent was the most exciting feature of the whole adventure. He was weary from his climb when he began the return. He had made about 20 feet and was still 30 feet from the ground when his strength gave out. He began to slip, the girl of the tree was too great for him to support himself by anchoring it with his arms, and he remained there helpless. As soon as his danger was recognized, all the boat's ladders were lashed end to end and placed against the tree. From the top one of the crew succeeded in throwing a rope to Peterson, who made it fast over a short branch. He then slid down the rope and was assisted to the top of the ladder, from which he again reached terra firma exhausted but unhurt. As the crew returned to the steamer the male bird reappeared and circled round the empty nest. Again the firearms were produced and after many shots the eagle fell to the life of Captain Fraser. The bird was secured and found to measure seven feet and a half from tip to tip. As the fatal bullet had struck it in the neck the body and wings were unharmed. The female had been shot in the body and damaged.

Nelson's fourteenth annual celebration of Dominion Day Friday and Saturday was most successfully carried out without a hitch of any kind, and with glorious weather. In the principal sports Nelson and Cranbrook broke even at lacrosse, 4 goals each. Nelson defeated Sandown at football 3 to 1. Rossland had the better of it at lawn tennis, and the Kaslo men came out on top in the shoot-

UNCOMMON WEATHER

Brings Colds and Grippe.

It is just a common cold, people say, there's no danger in that. Admitting their statement, then there are uncommon colds, colds which are dangerous; for many a fatal sickness begins with a cold. If we could tell the common cold from the uncommon we could feel quite safe. But we can't. The uncommon variety is rarely recognized until it has fastened its hold on the lungs, and there are symptoms of consumption.

Commonly the first symptom of a "cold" is a chilly feeling, accompanied by sneezing, or a tickling in the throat. The most frequent of external causes are draughts, wet or cold feet, or going from hot rooms suddenly into cold ones. More frequently there is an inner cause—the stagnation of blood caused by constipation or biliousness. Almost the first symptom is the feeling of cold in the feet and increased discharge from the nose, followed by bronchitis, grip, or even by consumption.

COMMON SENSE MEDICATION.

No one ever takes cold unless constipated, or exhausted, and having what we call mal-nutrition, which is attended with impoverished blood and exhaustion of nerve force. However there is no great danger in a cold unless it is neglected. Of course when the blood is in this stagnant condition the germs of grip, catarrh, consumption, malaria or any other disease find a fertile field in which to take root and grow. At the first symptoms the careful person will heed the warning by taking a mild laxative; some vegetable pill that will not disturb the system or cause griping. About the handiest and best thing is "Dr. Pierce's Pleasant Pellets," little sugar coated granules, which come in a bottle and are perfectly harmless to the system. If the cold starts with a cough, and it persists then some local treatment for this condition should be taken. A well known alternative extract which has been on the market for a great many years, and which has been highly recommended by thousands of users, is Dr. Pierce's Golden Medical Discovery. This tonic compound is composed of an extract of roots and herbs and has a soothing effect upon the mucous membrane, allays the irritation and at the same time works in the proper and reasonable way, at the seat of the trouble—the stagnated or poisoned blood.

ARE WE THE CHILDREN OF NATURE? Who can but admire the beautiful things in nature—the glory of the landscape, the trees, the meadows, the beauty of the sea and heaven! When we can admire we know that we are children of nature. The earth has nourished us through unknown ages of human existence. A mystical bond of sympathy connects us with the earth. Is it not true that the earth supplies us with everything that we really require for existence? We can live on vegetables and fruit which the earth produces. We would probably be better off to-day as a

race without meat. Have you ever thought that it is probable that the earth supplied us with the means to keep our bodily vigor, our health, if we only knew it? The animals know by instinct what is good for them and will search until they find in some plant what they need for correcting indigestion or constipation, etc. Is it therefore not probable that there are roots and herbs supplied by nature which will cure the diseases that afflict human kind? That is why we have such faith in Dr. Pierce's Golden Medical Discovery. Years ago when Dr. Pierce was in general practice he found that a combination of certain herbs made an alternative extract, without alcohol, would always put the stomach into a healthy condition, nourish the tissues, feed the blood and nerves and give healthy tone to the whole system.

"I was troubled with what the doctors called pleurisy in left side and around my heart," writes James Trenholm, of (Hastford) Bayfield, New Brunswick. "Had gone through a severe sickness and improved so slowly that I began to think I would never get strong again. Being recommended to try Dr. Pierce's medicines, I used about six bottles of the 'Golden Medical Discovery,' and about three vials of his 'Pleasant Pellets,' and can truthfully say I don't think I ever felt better in my life. I rise early in the morning, work late at night, and with good energy. We have used eighteen bottles of 'Golden Medical Discovery' and 'Favorite Prescription,' and 'Pellets' in our family. We have a copy of the 'Common Sense Medical Adviser.' Such confidence have I in your medicines that if circumstances in life would permit I would keep a supply on hand all the time. No house should be without Dr. Pierce's Pleasant Pellets. They are the best I have ever known for regulating the stomach and bowels and to break up the 'grip' or a cold. I have also found the 'Common Sense Medical Adviser' a very profitable book."

"In reply to your letter of December 21st, I thank you for your kindness in remembering me," writes Mrs. Alfred Dixon, of Gordon Bay, Muskoka, Ont. "I am pleased to be able to answer with a description of my case. I was all run down; had cold feet and hands, and swelling of feet and hands. Bad taste in mouth in morning; tongue coated, pains around heart and liver; constipation, painful periods, grew thin and was so weak I did not care what became of me. Doctored with two physicians but to no purpose. I then wrote to you, describing my case, and you answered, saying I had indigestion and torpid liver, and advised me to take your 'Golden Medical Discovery' and 'Pleasant Pellets.' I got five dollars' worth, and took the medicines as directed. It did me so much good that I got five more bottles and three vials of the 'Pellets.' All my bad symptoms have gone. That is one year ago this month. Last summer I had to work hard all summer and have had to this winter, and have not taken any medicine since. I thank God and you for the good your medicines have done for me. I hope this will help some other poor one who may be needing help."

Dr. Pierce's Common Sense Medical Adviser, sent free on receipt of 31 one-cent stamps for the book in paper covers, or 50 stamps for the cloth-bound volume. Address Dr. R. V. Pierce, Buffalo, N. Y.

NOTICE TO CONTRACTORS

Notice is hereby given that the time for receiving tenders for the erection of a new Home for the Aged and Infirm and for the construction of a new bridge across Rock Bay has been extended until Monday next, the 10th inst., at 4 p. m.

The cheques submitted by the tenders already received will be held by the Corporation until the 10th inst. and will not be necessary to duplicate said cheques when submitting new tenders.

Amended or new tenders to be delivered at the office of the undersigned. The lowest, or any tender not accepted, C. M. C.

City Clerk's Office, Victoria, B. C., July 4th, 1905.

ing tournament. The launch races attracted a large crowd of spectators. The horse races, rock drilling and Caledonian sports were all well contested. The flower show in the main exhibition building closed Saturday night after a most successful two days, with a production by amateurs of the cantata, "Rose Maiden."

J. Bunten was entertained at the city hall on Monday evening by the employees of the New Westminster branch of the B. C. Electric Railway Company. The retiring general manager was presented with a silver tea set as a token of the respect in which he is held here. W. W. Dunlap, senior metcower, making the presentation, and D. Stewart, president of the Employees' Union, reading the address which accompanied it. His Worship the Mayor, also on behalf of the corporation, made a farewell address, in which many nice sentiments were happily expressed. Mr. Bunten replied tersely but feelingly.

Fred Ross, who was injured when knocked out in the prize fight at Aberdeen on Monday night by Jack Donnelly, is dead. Donnelly will be arrested.

NOTICE.

The Municipal Council of the Corporation of the City of Victoria having determined that it is desirable to construct and lay permanent sidewalks of concrete on the following streets, namely:

Carr street, east side, from Toronto street to Simcoe street.
Simcoe street, south side, from Carr street to Beacon street.
Clarence street, east side, from Simcoe street to Niagara street.
Quebec street, south side, from Menzies street to St. John street.
Kingston street, south side, from Montreal street to St. Lawrence street.
St. John street, east side, from Belleville street to Quebec street.
Bridgeway street, east side, from Belleville street to Michigan street.
Erie street, south side, from St. Lawrence street to Dallas road.
St. Lawrence street, east side, from Kingston street to Erie street.
Dallas road, east side, from Erie street to St. Lawrence street.

And that each and every of said works should be carried out in accordance with the provisions of the "Local Improvement General By-Law," and the City Engineer and City Assessor having reported to the Council in accordance with the provisions of Section 4 of the said by-law, upon the said works of local improvement, the Council do hereby give notice that the reports in question are open for inspection at the office of the City Assessor, City Hall, Douglas street, WELLINGTON J. DOWLER, C. M. C.

City Clerk's Office, July 4th, 1905.

Thirty days after date I intend to apply to the Hon. the Chief Commissioner of Lands and Works for permission to lease for pastoral purposes 150 acres of unreserved, ungrazed and unoccupied Crown land situated at Belva Creek, Colvill station, B. C., commencing at a point on the west bank of the Neeltletts Convey river (about three miles above the Convey wagon road), thence east 40 chains, thence north 40 chains, thence west 40 chains, thence in a southerly direction along river bank to point of commencement.

A. D. McDONALD, Belva Creek, B. C., June 20th, 1905.

The sinking of a win in the west drift, 100 feet of tunnelling on the "King George" claim.
500 feet of tunnelling, low level, on the claim.

Particulars of HOWLAND MACHIN, Secretary-Treasurer, 25 Yates Street, City.

SYNOPSIS OF REGULATIONS FOR DISPOSAL OF MINERALS ON DOMINION LANDS IN MANITOBA, THE NORTH WEST TERRITORIES AND THE YUKON TERRITORY.

Coal.—Coal lands may be purchased at \$10 per acre for soft coal and \$20 for anthracite. Not more than 250 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2,000 pounds shall be collected on the gross output.

Quartz.—Persons of eighteen years and over and joint stock companies holding free miner's certificates may obtain entry for a mining location.

A free miner's certificate is granted for one or more years, not exceeding five, upon payment in advance of \$7.50 per annum for an individual, and from \$50 to \$100 per annum for a company, according to capital.

A free miner, having discovered mineral in place, may locate a claim 1,500x1,500 feet by marking out the same with two legal posts, bearing location notices, one at each end on the line of the ledge vein.

The claim shall be recorded within fifteen days if located within ten miles of a mining recorder's office, one additional day allowed for every additional ten miles or fraction. The fee for recording a claim is \$5.

At least \$100 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When \$500 has been expended or paid, the locator may, upon having a survey made, and upon complying with other requirements, purchase the land at \$1.00 an acre.

Permit may be granted by the Minister of the Interior to locate claims containing iron and mica, also copper, in the Yukon Territory, of an area not exceeding 100 acres.

The patent for a mining location shall provide for the payment of a Royalty of 25 per cent. of the sales of the products of the location.

Placer Mining.—Manitoba and the N. W. T., excepting the Yukon Territory.—Placer mining claims generally are 100 feet square; entry fee, \$5, renewable yearly.

North Saskatchewan River.—Claims are either bar or bench, the former being 100 feet long and extending between high and low water mark. The latter includes bar diggings, but extends back to the base of the bar or bench, but not exceeding 1,000 feet. Where steam power is used, claims 200 feet wide may be obtained.

Dredging in the river, Manitoba and the N. W. T., excepting the Yukon Territory.—A free miner may obtain only two claims of five miles each for a dredge in twenty years, renewable in the discretion of the Minister of the Interior.

The lessee's right is confined to the submerged bed or bars in the river below low water mark, and subject to the rights of all persons who have, or who may receive, rights for their digging to the bed, except on the Saskatchewan River where the lessee may dredge to high-water mark.

The lessee shall have one dredge in operation within one season from the date of the lease for each five miles, but where a person or company has obtained more than one lease, one dredge for each five miles or fraction is sufficient. Rental, \$10 per annum for five miles or river mile. Royalty at the rate of two and a half per cent. collected on the output after it exceeds \$10,000.

Dredging in the Yukon Territory.—Six leases of five miles each may be granted to a free miner for a term of twenty years, also renewable.

The lessee's right is confined to the submerged bed or bars in the river below low water mark, that boundary to be fixed by his position on the 1st day of August in the year of the date of the lease.

The lessee shall have one dredge in operation within two years from the date of the lease, and one dredge for each five miles within six years from said date. Rental, \$100 per mile for first year and \$10 per mile for each subsequent year. Royalty, one and a half per cent.

Placer Mining in the Yukon Territory.—Creek, gulch, river and hill claims shall not exceed 250 feet in length, measured on the base line or general direction of the creek or gulch, the width being from 1,000 to 2,000 feet. All other placer claims shall be 250 feet square.

Claims are marked by two legal posts, one at each end, bearing notices. Entry must be obtained within ten days if the claim is within ten miles of Mining Recorder's office. One extra day allowed for each additional ten miles or fraction.

The person or company staking a claim must hold a free miner's certificate.

The discoverer of a new mine is entitled to a claim of 1,000 feet in length, if the party discovers that work has been done must be obtained each year; if not, the claim shall be deemed to be abandoned, on the output of which no royalty shall be charged, the rest of the party's ordinary claims only.

Entry fee, \$10. Royalty at the rate of two and one-half per cent. on the value of the gold shipped from the Yukon Territory to be paid to the Comptroller.

No free miner shall receive a grant of more than one mining claim on each separate river, creek or gulch, but the same miner may hold any number of claims by purchase, and free miners may work their claims in partnership by filing notice and paying fee of \$2. A claim may be abandoned, and another obtained on the same creek, gulch or river, by giving notice and paying a fee.

Work must be done on a claim each year to the value of at least \$200.

A certificate that work has been done must be obtained each year; if not, the claim shall be deemed to be abandoned, on the output of which no royalty shall be charged, the rest of the party's ordinary claims only.

The boundaries of a claim may be defined absolutely by having a survey made and publishing notices in the Yukon Official Gazette.

Petroleum.—All unappropriated Dominion lands in Manitoba, the Northwest Territories and within the Yukon Territory, are open to prospecting for petroleum, and the Minister may reserve for an individual or company having machinery on the land to be prospecting an area of 1,500 acres for each period as he may decide, the length of which shall not exceed three times the breadth. Should the prospector discover oil in paying quantities, and satisfactorily establish such discovery, an area not exceeding 500 acres, including the oil well, will be sold to the prospector at the rate of \$1 an acre; and the remainder of the tract reserved, namely, 1,250 acres, will be sold to the prospector at the rate of \$2 an acre at such rate as may be specified by Order in Council.

W. W. CORY, Deputy of the Minister of the Interior, Dept. Interior.

CANCELLATION OF RESERVE
Notice is hereby given that the reserve, that covering Graham Island, Queen Charlotte Group, notice of which was published in the British Columbia Gazette and dated 30th January, 1904, has been cancelled, and that Crown lands thereon will be open to sale, pre-emption and other disposition under the provisions of the Land Act, on and after the 21st July next.

W. S. GORE, Deputy Commissioner of Lands & Works, Lands and Works Department, Victoria, B. C., 20th April, 1905.

FOR SALE
Set of compound surface condensing engines and boilers complete, and suitable for tug or small cargo boat. For particulars apply to J. K. REBECK, Board of Trade, Room 6.

NOTICE
From this date the undersigned will not be responsible for any indebtedness incurred except on a written order signed by the Secretary, Rowland Machin, V. I. EXPLORATION & DEVELOPMENT CO., LTD., NON-PERSONAL, 25 YATES ST., VICTORIA, B. C., Mar. 18th, 1905.

Ontario Conservatives Talked It Out in House Last Night.

(Special to the Times.)

Ottawa, July 6.—The Ontario Conservatives, headed by Hon. G. E. Foster and Haughton Leases, succeeded in outvoting the V. V. & E. Bill by talking it out last night. They expect to prevent it getting through the senate, but in this they will be disappointed.

Sessional Indemnity.

A round robin has been signed by members of parliament on both sides of the House asking for an increase of sessional indemnity to \$2,500; at present it is \$1,500.

BINGER HERMAN'S TRIAL.

Case in Connection With Land Fraud Postponed—Conspiracy Charge May Come Up First.

(Special to the Times.)

Portland, Ore., July 6.—The Federal court here has placed the trial of United States Congressman Binger Hermann, indicted in connection with the Oregon land frauds, in the hands of the grand jury. This is believed to indicate that Hermann will first be tried on the indictment for conspiracy, brought against him at Washington, D. C. He was former commissioner of the land office in Oregon.

STILL AT LIBERTY.

Tedona, Wash., July 6.—At midnight last night the officers had no definite trace of the eight prisoners who escaped from McNelly Island then on the morning when they broke out. The reported clues of yesterday were run down without success.

JOHN OLIVER WILL MEET THE PREMIER

He Has Hastened to Alberni to be Present at Tonight's Political Gathering

A hot political fight is being waged in Alberni. The government is putting forth every effort to win the election.

What will likely be the big meeting of the campaign is to be held at Alberni to-night. Premier McBride, who is conducting the election himself, is to be at the meeting, and he will there have to face John Oliver. The member for Delta upon learning yesterday forenoon that the opportunity was to be afforded of meeting the Premier before the election at once proceeded to reach the point. He was able to get to Vancouver before the train left for Nanaimo, and set out last evening for the Coast City for the West Coast.

Tonight he will be enabled to show up the inconsistencies of the Premier's political career and destroy all claims which the latter may have to ask for an endorsement of his policy or lack of policy while at the head of affairs.

To-morrow evening another meeting in the interests of Hugh Aitken, the Liberal candidate, will be held at Parkville. The Premier is asked to attend this meeting also and discuss questions of the day. On Saturday Mr. Aitken will also hold a meeting at Wellington. H. L. Drury, M.P.P., expects to be present at this latter meeting. The Premier will be invited also to this gathering.

The reports received from Alberni constituency are most encouraging for Mr. Aitken. A revulsion of feeling against the acts of the present government is manifest at all points and an overwhelming defeat for W. Mansson, the Conservative candidate, is fully expected.

RAIL WAS GRANTED.

J. K. McCreedy Secures His Liberty By Producing Substantial Sureties.

Yesterday afternoon Mr. Justice Irving granted bail to J. K. McCreedy, who was placed under arrest in consequence of his decision to refrain from giving testimony in the Gibbons case because of the reasons cited in his letter to Supt. Hussey, of the provincial police. Yesterday morning, it will be remembered, A. D. Taylor, counsel for Mr. McCreedy, applied to Police Magistrate Hall for bail, pointing out the unreasonableness of detaining his client in custody until Monday. The magistrate, however, contended that he had no power under the code to grant the bail.

Thereupon Mr. Taylor appeared before Mr. Justice Irving. He presented an affidavit as to the facts of Mr. McCreedy's arrest and his application for bail before the magistrate. His Lordship fixed the amount of bail as follows: Mr. McCreedy in the sum of \$3,000, and two sureties of \$1,500 each. Mr. McCreedy's sureties were Dr. G. L. Milne and W. K. Houston.

PERSONAL.

A large party, including many from Chicago, made a flying visit to Victoria yesterday afternoon. They had dinner at the Grand, leaving again last night.

W. H. Phin, of this city, left on Tuesday for Kelowna to take a position on the staff of the local branch of the Bank of Montreal.

Col. and Mrs. William Freeman, of Brighton, and J. Freeman, of Sonoma, were guests at the Grand last evening.

W. J. L. Hamilton, of Salt Spring Island, is a guest at the St. Francis.

D. A. Downey, of Nova Scotia, is at the Vernon.

T. M. FIVE DEAD.

Lost Their Lives in Tornado Which Swept Through Montague County, Texas.

Four Worth, Texas, July 6.—The latest reports from Montague County, which was partially swept by a tornado, give the number of dead as 35.

VISITING NEWSMEN

Will Be Tendered a Smoker Here To-morrow Evening.

Although, unfortunately the stay of the Washington press correspondents will be limited to Friday night, every effort will be put forth to make their visit enjoyable and profitable. They left Banff shortly after 7 o'clock this morning, and should reach Vancouver on the 10:45 a. m. train to-morrow. At the usual hour they will embark on the Princess Victoria, arriving here at 5 o'clock.

In the evening they will be the guests of the Tourist Association, who will take them for a drive around the residential districts of the city, winding up at Oak Bay, where a smoker will be given in their honor, the scene being the Oak Bay hotel. Afterwards, if they wish, they will be escorted through Chinatown. For the smoker an excellent programme has been arranged, and there is no doubt that the visitors will heartily enjoy themselves.

Last evening Secretary Galt, of the Tourist Association, sent the following telegram to George H. Ham, of C. P. R., under whose fatherly indulgence the party are taking in the sights of Canada:

Victoria, July 5th.

George H. Ham, Esq.

Arranged to call for parties at hotel here after dinner with tally-ho coaches and take them for drive around city, visiting parliament buildings and museum, continuing drive to Oak Bay hotel, where an informal smoker will be held.

Mr. Ham replied that the arrangements were entirely satisfactory, and that the party were looking forward to their visit to Victoria with much pleasure.

BRIEF LOCALS

A meeting of the sub-executive committee in connection with the J. B. A. A. will be held this evening. A large attendance is desired.

Thos. Lewis, an old offender, faced Magistrate Hall in the police court on the charge of vagrancy. He was sentenced to six months' imprisonment with hard labor.

This week's Provincial Gazette contains a copy of the writ which has been issued for the bye-election in Alberni. The writ is returnable August 15th. The date of the election is not named.

There will be an election among the Songhees Indians next fall for the purpose of filling the position of chief. Michael Cooper, who was appointed to the post in 1894, and who served apparently in a most satisfactory way for over three terms, has resigned and no longer wishes to act in the capacity of leader, as he claims that beyond the title the position holds out no inducements. He is the third chief since the late Chief Fraser, who was well known during the days of the late Sir James Douglas. One of the new aspirants for the position is said to be Willie Jack, but he is the only one mentioned in this connection as yet.

The annual meeting of the trades and labor council was held last evening, when Hugh Robinson, of Hamilton, general organizer of the J. T. U. and A. F. of L., was presented and delivered an interesting address. Reports were read from the various officers, which showed the council to be sound financially and strong numerically. Considerable other business was transacted, among which was a request that the council use its influence in settling a difference which has arisen in the Tailors' Union over two members refusing to sign the wage scale. This was referred to the incoming executive, which was appointed as follows: T. H. Piper, Mr. Baynton and E. Gilligan. Geo. Caldwell was selected president, C. Stewart, secretary, and A. Johnson, treasurer. R. T. Williams was elected vice-president.

NEW SECRETARY OF STATE.

Eliza Root Succeeded the Late John Hay.

(Associated Press.)

New York, July 6.—It can be definitely stated that President Roosevelt has offered the position of secretary of state to Eliza Root and that Mr. Root has accepted.

NEW LAND REGISTRY ACT IS CRITICISED

Real Estate Men and Conveyancers Say It Will Cause No End of Trouble

Real estate men and others who have studied the act to amend the Land Registry Act which was passed at the last session of the legislature are wondering how it is to be interpreted. Apparently they are not the only ones wondering, for Registrar Wootton has gone to Vancouver to confer with the registrars of the Mainland on the subject. The act, which is an attempt to introduce the Torrens system—a system, by the way, that has been on the statute books for some years, but has been optional—renders registration compulsory before any instrument affecting land, estate or interest therein can be legally good. The particular section that has aroused the ire of real estate men and conveyancers is No. 45, which reads: "No instrument executed after and taking effect after the coming into force of this act, purporting to transfer, charge, deal with or affect land, or any estate or interest therein (except a leasehold interest in possession for a term not exceeding three years) shall pass any estate or interest, either at law or in equity, in such land until the same shall be registered in compliance with the provisions of the act, but such instrument shall only confer on the person benefited thereby the right to apply to have the same registered."

This, in brief means, that everything affecting land, or interest in land, including agreement of sale, conveyance or mortgage must be registered before it becomes valid. Under the old act the conveyance carried with it a covenant of title, in other words a purchaser secured his title immediately upon execution, and could hand over the money to the vendor. Such a title under the amendment is worthless. It is suspended between the vendor and purchaser pending registration, after which it becomes operative. And even then there is no guarantee that the registrar will grant registration. That official takes possession of all documents in a transaction, and hands out a certificate of title.

It is claimed that this particular section should not have been passed; that it will cause no end of trouble in its operation. The old system has been in use for about forty years, and critics of the act point out that certain features of the amended form would not have been introduced had the introducers taken the consensus of opinion among those experienced in such matters.

EXPLOSION IN MINE.

Five Men Killed and Several Injured—Bodies Found in Shaft.

(Associated Press.)

Connellsville, Pa., July 6.—Five men are known to have been killed and many injured in a mine explosion in Keating shaft. The works are located near Searights, Pa., six miles from Brownsville.

The accident is supposed to have been caused by a premature explosion of dynamite. One man was seriously injured. The men were found at the bottom of the shaft, which is 94 feet deep.

Have You Heartburn?

It's quite common with people whose digestion is poor. Immediate relief follows the use of Nerviline. Stomach is strengthened, digestion is made perfect, heartburn, nervousness, and all the troubles that result in every case. Use Nerviline. Nerviline once and you'll never be without it. Because every type of stomach disorder is conquered by a few doses. One 25c. bottle of Nerviline always convinces. Sold everywhere for the past fifty years.

Wear "Fit-Reform" clothes, and then you'll know why so many people buy at Fit-Reform Wardrobe, 73 Government Street.

P. O. BOX 623. TEL. 504.

12th instant received. In reply I beg to state that the executive came to the unanimous decision that the case made out by Victoria Trades and Labor Council with reference to your action in connection with the Garment Workers, up to that time, did not warrant the executive in cancelling your commission as organizer for Victoria city and district.

Fraternally yours, P. M. PRAPER.

THE STOCK MARKETS.

(Furnished by P. W. Stevenson.)

New York, July 6.—At the opening on the Stock Exchange to-day, prices were generally higher than last night, but after the first two hours' trading the market became dull and trading was confined chiefly to specialties. The most prominent was Reading, which sold up to 107 1/2. Union Pacific reached 100 1/2, and St. Paul sold above 100. Profit taking wiped out some of the gains, but the close was firm and showed some good gains over yesterday.

Government bonds steady, railroads irregular. Call loans 2 1/2 per cent.

Selling to noon, 433,700 shares.

Chicago, July 6.—Weakness in the wheat market was again manifest from the opening to-day. Lower prices at Liverpool and good reports of the growing crop resulted in the September option declining to 80 1/2.

When a show of strength was made and the price turned up again to 87 1/2, but profit taking carried it down again and the close was weak at about the lowest. July down 1 1/2 at 89 1/2, and September down 1/2 at 86 1/2.

Light receipts kept prices firm in the corn pit during the entire session. September up 1/2 at 55 1/2, and December down 1/2 at 40 1/2.

Oats and provisions weak.

Liverpool market lower. July and September down 1/2 at 68 1/2, and 68 1/2, respectively.

KEEN CONTEST.

Miss Sutton Defeated Miss Willson for All-Comers Ladies' Tennis Championship.

(Associated Press.)

London, July 6.—Miss May Sutton, of Pasadena, Cal., won the finals in the all-comers ladies' championship at Wimbledon to-day, defeating Miss Willson, the champion of Kent, 6-3, 8-6. Miss Sutton will now meet Miss Douglas for the national championship.

To-day's match proved to be the hardest Miss Sutton had yet struck. There were four deuce games in both sets. The American was tired at the commencement of the second set and the Kentish champion seemed to be winning when Miss Sutton rallied and ultimately won. Her victory was very popular. An enormous gallery witnessed the match and stood up on stands and cheered the winner.

A combination of twenty-six coal companies of Indiana, controlling 20,000 acres of coal lands, has been formed at Pittsburg, Pa., under the name of the Vandalia Coal Company. The new concern has a capital of \$7,000,000. A. M. Ogilvie, of Indianapolis, is president.
